

Prowess RICHARD-CHUKKAS

Graduate in Sustainability and Social Innovation—HEC

2020-2022 International Scholarship

“The scholarship program was a wonderful academic, cultural and professional growth experience.

I am so thankful to TotalEnergies for the exposure and for taking care of me every step of the journey. Being in a country where I don't speak the native language so far from home, I did not feel alone and I was never left stranded. I especially remember how instrumental Total was when I had administrative, accommodation and even flight challenges. You made sure they were all solved and I was well taken care of.

I know I will be a part of the TotalEnergies family forever. I hope for future professional collaborations with you and thank you one more time! I would be happy to represent as an alumni in any capacity you need me to in the future and please remember me in future professional/career opportunities. Thank you again! “
